

## Microsoft Interview Experience | Set 135 (For SDE II)

- Difficulty Level : \n[Easy](#)
- Last Updated : \n18 Dec, 2018

This was for Bing team.

### First Round-(Skype Call)

3 PS/DS questions. All of them were questions which involved application of standard problems.

After that I was called to Hyderabad for a day long drive. 3 Interviews with managers, 1 with partner.

### First Round-

1. A book is given, write a function where input is line number and output is content of the line. This involved discussion, optimisation where the problem evolved into designing a cache.

### Second Round-

1. [Function to fill sibling pointer in a binary tree.](#)
2. Design system which tells how many stations exist between 2 stations and trains which run between them.

### Third Round-

1. Design a system like one which facebook has, where you get live feeds from your friend.
2. [Find an element in an array such that all numbers before it are increasing and after that are decreasing.](#)

### Final Round-

1. Past Experience based questions.
2. [Process and thread questions.](#)
3. A company which uses mac laptops as well as mac servers, wants to shift to windows server, but doesn't want to replace mac laptops. Whats can be done?
