

## Microsoft Non-tech Coding round

- Last Updated :30 Jul, 2019

**Round 1:** There is only one round in the Microsoft screening for full-time as a fresher. The test was conducted by a company hired by Microsoft which conducts tests for the same and the test was taken on the platform [tests.mettl.com](https://www.mettl.com), the invitation key was provided by the invigilators and the test was covered by 4 sections as follows:

1. Quantitative and analytics
2. Hands on programming
3. Coding
4. WET

In the first section, *20 questions* were given for *20mins*. the second section also contained *20 questions* and time was *20 mins* for this section, the coding section had **2 codes** for which we have given *15 mins*, questions were distinct. The last section was about writing *an* essay on the topic **ROLE OF MEDIA IN THE DEVELOPMENT OF SOCIETY** for which 15mins were given to us.
